

Revolutionise conveyancing for your Remortgage clients with My Home Move

You can now get more for your remortgage clients with My Home Move's online case-management service eWay.

This modern solution to conveyancing gives users greater visibility and control over case files.

Remortgage eWay benefits:

- **Conveyancing on the go** - clients have the ability to manage their conveyancing case whenever they want, from wherever they are via their smartphone or tablet. The eWay app will also send them push notifications, so clients are always kept up-to-date.
- **Clear progress** - the unique eWay dial shows clients how their case is progressing. Each section is a milestone in the conveyancing process - the fuller the section is, the closer it is to being completed.
- **Online interactive forms** - nearly all documentation is available to complete online, helping to further speed up the conveyancing process.
- **Here to help** - clients will have access to a suite of useful video guides and help sections, which enable clients to understand exactly what they need to do.
- **Action notifications** - red action indicators on the dial let clients know that there is an activity for them to complete.

- **Personalised for clients** - each client gets a personal login, allowing both the client and their conveyancer to see what actions have been taken. Clients can also upload photographs to eWay, giving it that personal touch.

Other benefits of recommending our expert conveyancing service:
